"Animation World Network is a great resource for the entertainment industry. Not only do they deliver comprehensive coverage of animation events, production and personalities, but it's also a fun site - providing everything from Bill Plympton's cartoon of the week to clips of Academy Award® contenders. So kudos to AWN!"

- Chris Wedge
Director of the 20th Century Fox feature *Ice Age*

WE ARE PLEASED TO WELCOME YOU TO ENJOY **AWN'S INAUGURAL publication** of the **AIDB Directories**. This three-part animation industry directory offers a resource to professionals that has never before been available. Derived from AWN's *exclusive* online **Animation Industry Database (www.AIDB.com)**, these new downloadable publications are designed to provide AWN readers with valuable information on animation, visual effects, gaming and related companies from around the world. The AIDB is the most comprehensive, searchable and easy to use resource of its kind. Over 4,000 companies from 80 countries are represented within these directories, featuring companies that sell products, provide services and possess creative expertise across more than 100 business and production categories.

AWN has just published the Winter 2002 edition of the following printable PDF directories. Follow the links below to **download** these directories for **free**.

- GLOBAL **ANIMATION BUSINESS** DIRECTORY
- GLOBAL **ANIMATION HARDWARE&SOFTWARE** DIRECTORY
- GLOBAL **ANIMATION PRODUCTION** DIRECTORY

The on-line AIDB grows everyday as more and more people update their company profiles. Inclusion, access and use of the AIDB is provided free of charge. Participating companies edit their own descriptive profiles, so the information stays up-to-date and accurate. We encourage you to update your information within the AIDB to keep it current and make it more readily available to potential business prospects. AWN editors check links, phone numbers and other information to help keep it current. You can easily follow live email and Web links to companies across the globe, providing you a convenient starting point for your online research, investigation and marketing efforts.

We hope you enjoy AWN's AIDB Directories, as well as all the wonderful publications and resources AWN has to offer. It is our hope that the content published by AWN enlightens you, inspires you and helps to inform and propel you toward more successful and rewarding efforts in whatever area of the animation industry you work.

Sincerely,
Dan Sarto & Ron Diamond

A New Design Freedom

A CREATIVE Company

Introducing the World's First Fully Programmable Visual Processor

The sky's the only limit to your design creativity with Wildcat® VP—an astounding breakthrough in 3D workstation graphics.

The industry's first fully programmable Visual Processing Unit (VPU) powers a family of accelerators that deliver unmatched productivity for professional OpenGL® and Direct3D®-based applications. But that's not all. With unrivaled flexibility, Wildcat VP is enabling a new generation of applications to extend the boundaries of interactive visual realism. Experience the ultimate in graphics design freedom today. Be ready for visual programmability tomorrow. Wildcat VP from 3Dlabs.

| | |
|---|--|
| Leading OpenGL and Direct3D performance Over 200GFlop and 1.2 TeraOp VPU Professional-grade reliability and quality | A full family of 64MB and 128MB boards High performance virtual memory Dual independent displays |

Real time. Real fast. Real simple.

LUNCHBOX SYNC'S MULTIREEL FEATURING 18 SEPARATE 5^{1/2} MINUTE REELS

The LunchBox Sync is widely known for being a snap to learn, truly easy to use, fast and reliable. Now with the LunchBox's MultiReel option, you can have the ease of use and speed of 18 LunchBoxes in one small, portable device.

Each of the 18 reels (PAL, over 20 with NTSC) has at least 5^{1/2} minutes of animation. That's over 120 minutes of images and 1,000 minutes of audio in one LunchBox. Best of all, you don't have to worry about accidentally editing the wrong reel. The LunchBox Sync MultiReel has built-in interference protection, so students get greater convenience, studio animators can show directors different treatments and independents can show clients different projects. Already bought some LunchBox Syncs? No problem — MultiReel upgrades are available.

The LunchBox Sync is used at schools and studios for pencil tests, animatics, reference tests, student projects, Web animation, demo reels, previews and festival entries.

Animation Toolworks' LunchBox Sync. Simply nourishing your creativity.

TEACHING ANIMATION?

We're at the head of the class.

To enthrall 5-year-olds learning animation, the equipment you teach with has to be simple. To motivate high school students, feedback must be instantaneous. And university students need a tool powerful enough to create an entire festival entry.

The LunchBox Sync fits the bill. It's the same tool used by professionals worldwide. Real fast. Real simple. Real powerful. That's why so many schools and workshops teach animation with the LunchBox Sync. In preschools through post-graduate schools, the LunchBox Sync is the standard for learning animation.

Call us today to find out more, or visit our Web site.

Aleppo Pine
Growth 30-80 years

natFX

natFX for 3ds max rapidly generates photo-realistic 3D procedural models with next to no polygons. Using our revolutionary Hybrid technology, natFX combines 3D and 2D enabling you to keep a 3D representation of a tree without all the polygons. You can even age the tree, change its seasonal state and add wind. natFX has over 200 plants and trees available in its plant library. With natFX for 3ds max, plant simulation has never been so easy and so quick.
